

Letter of Recommendation (LOR) Reference Sheet

For: Mr. Damodar Patnekar (Bodhami)

Applicant: Anson Menino Barreto

Thank you for agreeing to support my Master's applications. Below are a few points from my internship and final-year project that you may find useful while writing the recommendation. Please feel free to include only the points that best reflect your experience working with me.

Internship & Professional Growth

- Adapted quickly to a professional software development environment.
- Demonstrated responsibility, accountability, and a strong work ethic.
- Took ownership of assigned tasks and contributed proactively.
- Communicated effectively with mentors and teammates.

Final Year Project – AI Resume Parsing & Candidate Shortlisting Platform

- Served as the **Team Leader** for the industry-sponsored final-year project developed in collaboration with Bodhami.
- Coordinated the team's development efforts and project milestones.
- Worked on AI-powered resume parsing, candidate information extraction, and automated shortlisting workflows.
- Contributed to building features aligned with real enterprise requirements and practical AI applications.

Technical Capabilities

- Strong software engineering and problem-solving skills.
- Quickly understood business requirements and translated them into technical solutions.
- Demonstrated the ability to learn new technologies and apply them effectively.

Leadership & Collaboration

- Led a multidisciplinary student team throughout the project.
- Coordinated task allocation and encouraged effective teamwork.
- Demonstrated initiative while resolving technical challenges.

Professional Qualities

- Professional attitude and communication.
- Dependable, responsible, and receptive to feedback.
- Strong willingness to learn and continuously improve.
- Well-prepared for postgraduate study and a career in Artificial Intelligence.

Please include only the points you feel are appropriate based on your experience working with me.
